LORD BARON WOODFIRED OVENS

Woodfired cooking has been around and practiced for centuries, long before electricity and gas were used to cook food.

Apart from the fuel savings woodfired cooking brings back the natural taste and flavor to your food just like an old fashioned wood and charcoal BBQ or as an option you can use it to lightly smoke your food

The art to great tasting food is the enjoyment of cooking itself. It's as easy as lighting a fire, then sitting back and enjoying the aroma and atmosphere your Woodfired Oven creates.

Our Woodfired Ovens are a huge hit overseas in Australia, America, Canada etc. and more - so now in New Zealand.

More and more kiwis are enjoying the great outdoor lifestyle with their pools, decks, patios, BBQ areas and now with Baron Woodfired Ovens, so you can have all your needs catered for in one outside area whether entertaining friends or just cooking for yourself and family.

You will be the envy of your friends and neighbours.

The quality and craftsmanship of our Woodfired Ovens will surpass your expectations and will ensure you will have many days over the years to come using your oven and still reliving the great natural taste of your food everytime you cook.

Bon-appetite

Lord Baron Woodfired Ovens
